

Board Report

Heading into September has been a quiet week. Many students have finished or are finishing up the last of their summer class and getting ready for Fall term. The campus has been quiet for most of the summer. The big event that part took this summer was the eclipse which was a success by Eric Slyter. Many from the community came to see the eclipse and everyone enjoyed the festivities that LBCC presented. As a student ambassador, I have been helping the incoming student for the 2017-2018 academic year with registering and informing them about different opportunities that LBCC offers. The SLC and PTK are gearing up to run booths for Welcome Day on the 20th. I am working with Mark Urista on a speech for earlier in the morning for the new incoming students. The SLC is currently working on exposing the student to how beneficial it is to have the LB Live App. There has not been much commotion this past summer, and summer term has come to an end the SLC is gearing up to start fall term.
