

Syllabus: Introduction to Developmental Psychology ONLINE (PSY 215) Winter Term 2020

Instructor: Laura Jones, Ph.D.
Office hours: Mondays and Wednesdays 12:00-12:50 (SSH109)
E-Mail: jonesl@linnbenton.edu (please use email to contact me*)

Note: When you email me, it is very important that you identify your full name, course you are attending and course time. I will not respond to emails that do not include this information.

Course Description:

Explores physical, psychological, emotional, and social development from birth to death. Topics include historical foundations, research methodology, and prominent theories/research of each developmental sequence across the lifespan.

Course Outcomes:

- Describe major facts and theories from the domain of developmental psychology.
- Apply relevant psychological phenomena to everyday relationships and situations.
- Combine and synthesize developmental concepts and theories to draw reasonable conclusions, develop intelligent skepticism, and critically analyze information.
- Develop insight into the self and others' behavior and mental processes as applicable throughout the lifespan.

How to avoid getting dropped. The following activities must be completed by the deadline or you will be dropped from the class. It is not possible to add you once you have been dropped. **Before 9 am on Friday 1/10:**

1. Enter the [Moodle](#) course shell and read your syllabus (I am able to see who accessed the syllabus);
2. Complete the 'help me get to know you' online questionnaire.

Important Note: LBCC will enroll you in the Moodle site for this course during the 1st week of classes. You will take your quizzes and submit assignments on Moodle, in addition to accessing the syllabus, your grades, and the discussion forum. It is an expectation for this course that you will use Moodle independently and seek help from the eLearning center if you have questions related to using Moodle. For information on how to use Moodle, [check out this site](#). Alternatively, you can visit the [Helpdesk in the library](#) any time during the library's open hours. If you are not prepared to work independently with moodle, drop this course immediately.

Class Presentation Slides and Class Audio

Your slide presentation is available here each Monday. In addition, on Wednesdays and Fridays I will create a link in the Slides folder to an audio recording of the class that meets here on campus. Simply click on the audio link to access and download the MP3 file. The slide presentation contains:

- Slides  Review information on the slides

- Individual activities  Complete the activities to consolidate your learning
- Embedded videos  View the embedded videos

Tools for Success in this Course: In a web course, the teacher is a **resource** in the learning process, while you, the student, takes a more active role in the process. If you are new to online learning, be aware that you will need to take the initiative to read all documents and materials thoroughly for your own understanding. Self-direction and self-discipline are critical. It is up to you to keep track of deadlines and complete and upload your assignments. The assignments, exams and weekly forums are ways for me to gauge your understanding of the teaching/learning process in which you are participating. I am here to help. I will respond to your assignments with feedback. If you have carefully read course materials and still have a question, post your question to the **Question and Answer Forum** right away.

Online courses take the place of three hours of lectures and outside class assignments required in a traditional face-to-face class. You should expect to devote about **10 hours per week on the online interactions and other class assignments**. Set aside specific time each week to work on this class.

Required Materials:

Berk, L.E. (2017). *Exploring Lifespan Development (Fourth Edition)* Boston: Pearson.
 Gawande, A. (2014). *Being Mortal. (First Edition)*. New York: Henry Holt and Company.

About the Texts: The text Exploring Lifespan Development has a lot of material. It is an excellent text and contains the latest research-based information. If it were up to me, you would read the whole text and I recommend it. With that said, I understand that you need to prioritize your reading. Each week, I will post a guide on moodle that will help you focus on material that is most prominent in the quizzes and exams.

You begin your second text, Being Mortal: Illness, Medicine and What Matters in the End, Week 1. Your project and assignments are based on this text. In addition, we will hold a 'book club' discussion forum each week during which you'll discuss topics related to the text, in addition to a discussion of book chapters, so it is important to complete your weekly assigned reading before you post your forum response (see Course Calendar at the end of this syllabus). Your weekly quizzes and exams will not include material from this book.

Policy Regarding Assigned Work

I do not accept late work except in the case of a medical emergency with documentation from your health care provider. Unless you have had a medical emergency, please do not create an uncomfortable situation by asking to turn in late work.

Most coursework is submitted/conducted online via moodle. Do not send any course work by email. Quizzes and assignments will be posted before **noon** on Monday and must be completed/submitted on moodle before 9am on the following Monday.

Point Earners

Chapter Quizzes: Take 9 open text quizzes on moodle, each worth 10 points (see course requirements table for more information). Quizzes cover your Exploring Lifespan Development text only. Use the reading guide to help you focus on what you need to know for the quizzes. The quiz is comprised of a mix of true/false, multiple choice (one + options) and matching items. T/F = 1 point; multiple choice with 1 answer = 1 point; multiple choice with more than one 1 answer = 2 points; matching = 3 points. You have 15 minutes to take the quiz.

Weekly Assignments: 10 weekly assignments, each worth 10 points. The assignments cover various topics and mostly focus on your readings from Being Mortal: Medicine and What Matters in the End. As with all other work, late assignments are not accepted.

Exams: Take 2 open book exams on moodle to assess your understanding of the course material. Exam 1 covers Week 1-6 lecture material (including videos), discussion forum and text chapters (Berk: 1-10). Exam 2 covers Week 7-10 lecture material (including videos) and text chapters (Berk: 11-19) +comprehensive items. Exam 2 will also contain some comprehensive items. **Important note:** Exam 2 and all course materials cannot be accepted after 5pm on Wednesday of finals week under any circumstances.

Project: This project will be due before 5 pm on Monday, at the beginning of Week 9 and will draw on your reading of the text Being Mortal: Medicine and What Matters in the End and our related class discussions via the forum. Late projects are not accepted. Please don't create an uncomfortable situation by asking.

Discussion Forum Activity: You will participate in discussion forums about topics related the text, Being Mortal (Gawande). For full credit, you will respond to at least 1 other classmates' post and your post should reflect integration of scientific information to support your perspective. This information can come from course lecture content and/or your reading, and/or the posted video/reading, and/or credible outside information.

Participation = 4 pts.

Replied to classmate=3 pts.

Quality will affect score!

Post sufficient = add 3 pts.*

***You must include reference to any of the following:
text, or posted reading or video, or Lecture, name the
source of your information AND Your own experience**

Grades are figured on straight percentage based on the total number of points possible.

A= 90-100% B= 80-89% C= 70-79% D= 60-69% F= 59% or below

More about the Discussion Forum activity: In order to receive full credit, your forum posts must explicitly reflect an integration of the podcast, video or readings assigned for the activity and/or the ideas covered in the weekly text readings. As you are graded on 'quality' one important part of this grade is originality. **Be sure the ideas you post are your own. Plagiarism includes copying other's ideas, so be careful not to paraphrase what others have written in the forum. If this happens, you will receive a '0' for a grade that week.** It is also important that you bring your unique perspective to share in a way that is non-dogmatic so that others can "listen" and understand you. I encourage you to ask questions, agree, and disagree with others as much as possible, as long as you do so respectfully. **CONFIDENTIALITY:** You may choose to share personal anecdotes about people you know. Speak from your own

perspective. Also, protect the confidentiality of others. Refer to them by first initial only (e.g. "T" rather than Thomas). You may also refer to "my sister", "my uncle", "my neighbor" or "my friend".

Accessibility Resources

Meet with your instructor during the first week of class if: 1. You have a documented disability and need accommodations. 2. Your instructor needs to know medical information about you. 3. You need special arrangements in the event of an emergency. If you have documented your disability, remember that you must make your request for accommodations through the Center for Accessibility Resources Online Services web page every term in order to receive accommodations. If you believe you may need accommodations but have not yet registered with CFAR, please visit the CFAR website at www.linnbenton.edu/cfar for steps on how to apply for services or call 541-917-4789.

Summary of Course Requirements (Point Earners)				
Requirement	Summary	Points Possible per unit	Units	Total
Forum Discussion Activity	A personal post on your thoughts around the forum and one additional forum comment on other class member's post	10	X10 posts	100
Weekly Assignments	10 weekly assignments	10	X10 classes	100
Project		75		75
Chapter Quizzes* (over text only)	9 online open book quizzes over the text only.	Variable types/ values totaling 10 points	X9 quizzes	90
Exams (texts, lecture, videos and discussion forum)	Exam 1: Chapters 1-10 Exam 2: Chapters 11-19 + comprehensive	100 100		200
Total Possible Points 565				

Cheating/Plagiarism: Using someone else's work as your own or using information or ideas without proper citation (this is plagiarism) can lead to your failing the assignment, forum post, test or class. Bibliographies and in text citations are required whenever you use outside sources, including internet sources (unless otherwise indicated by me). Do not directly reproduce material from another source in your weekly forum or assignment (even if you cite it!). You must provide material written in your own words and that contain your original ideas.

Week	Read these text chapters at beginning of week	Point Earners (below) are due each Monday <u>before 9 am</u> (on date listed below).
1 1/6	Berk: 1, 2 Gawande: 1	1/13 Online text quiz (Berk 1, 2) Discussion Forum Activity and Assignment 1
2 1/13	Berk: 33 Gawande: 2 & 3	1/20 Online text quiz (Berk, 3) Discussion Forum Activity and Assignment 2
3 1/20	Berk: 4, 5 Gawande: 4 & 5	1/27 Online text quiz (Chs. 4, 5) Discussion Forum Activity and Assignment 3
4 1/27	Berk: 6, 7 Gawande: 6	2/3 Online text quiz (Chap. 6) Discussion Forum Activity and Assignment 4
5 2/3	Berk: 7, 8 Gawande: 7	2/10 Online text quiz (Chs. 7, 8) Discussion Forum Activity and Assignment 5
