A student who expects to be absent due to another school-sponsored activity or compelling personal reason must make prior arrangements with the instructor. The option of making-up course work is at the discretion of the instructor. **Instructor will not provide any materials (terms, presentation items, etc.) for absent students.** It is in your own best interest to collaborate with other students in class to compare notes and study. If you plan on missing an exam, please see the exam section for related policies.

Academic Honesty:

Academic honesty is an indispensable value as students acquire knowledge and develop skills in college. Students are expected to practice academic honesty by not cheating, plagiarizing, or misrepresenting their coursework in any way. Students are ultimately responsible for

understanding and avoiding academic dishonesty whether such incidences are intentional or unintentional. Violations may result in failure of an assignment or failure of the course. **ALL Violations are reported through The Academic Honesty Concern Procedure.**

Plagiarism, collusion, and other forms of misrepresentation hurt the student and run counter to the goals of education. Therefore, please observe the following:

1. If you borrow or take from another's work, give credit to them.
2. Be sure your instructor can find the original material in your citation
3. When in doubt, cite the material and give a footnote explanation if needed.
4. It is okay to ask your instructor or the Writing Center for help.
5. **Do your own work at all times. Do not submit another student's work!**

You may earn one point of extra credit to your final grade by going to the following web page, taking the 15 minute tutorial, and emailing me something you learned about academic honesty **if you do it in the first week of class!**

Homework and Tutoring:

You are not required to do and turn in homework. The most successful students in the past did all the online study questions from myeconlab (code included with text in the book store), know all the in-class terms, and have good attendance. Additional optional review questions are frequently handed out to help with exam preparation. **Be careful: The deadlines in the system may not be correct. The correct time due is given verbally in class!**

Presentation Slides / Handouts:

You may access the text-book slides used in the class by signing up for myeconlab. The download for each chapter is available on-line. Handouts from previous classes are not available. You must attend lecture to get a copy of the handouts used in that lecture. If you cannot attend, please arrange with a fellow student to have them collect an extra copy for you, or to photocopy the handout for you.

Exams:

Dictionaries, rulers, and calculators are allowed on your exam. You are **strongly encouraged** to bring each of these to the exam. Students whose first language is not English are encouraged to bring a bilingual dictionary even if they are fluent in English due to the technical language used in the class. Your exam grade will not change because you bring or use these items!

Cellphones are not allowed (even if used as a calculator). Any illegible or incomprehensible answers will be given a mark of zero for that question. You will be given a note card with the exam review. You may put any information you want on that card for the exam and use both sides of the card. You are only allowed that one card per exam.

Exams must be taken in class on the scheduled day. In extreme situations the instructor may allow an exam to be rescheduled with appropriate documentation. When possible this should be discussed with the instructor prior to the exam date. Make-up exams do **NOT** allow for claw-back.

Please check the final exam schedule for all your classes now. Please contact me in week 2 of the class if you have a conflict or if you have 3 or more exams on the same day.

Financial Difficulties:

If you have financial difficulties affording the text book, online materials, printing costs, or other financial hardships, please see me within the first week of class to discuss as alternatives may be available.
