This course incorporates “Direct Digital Access.” The LBCC Campus Store's new digital course material service. This new service enables the bookstore to offer students instant access to online course materials, like textbooks and class websites. This course is included in a select number of courses taking part in this newly available program. The Campus Store has implemented this program to save students as much money as possible to combat the current high prices of course materials.

Students have immediate access to the digital course materials on the first day of class. To gain access to your content you'll log in to your Moodle course and click the “Macroeconomics w/ S. Forbes”

Student accounts have been charged by the Campus Store. If you decide you do not want to purchase these materials from the Campus Store, you can opt-out of the Direct Digital Access program by going to the RedShelf link in your Moodle course, clicking the View Course Materials button, scrolling to the bottom of the page to click the grey opt-out button and following the prompts. If you opt-out by the add/drop deadline of 4/12/19 at 11:59pm, you will receive a refund to your student account. Please contact the Campus Store with any questions about refunds. If you have any questions concerning Direct Digital Access, please reach out to the Campus Store or email help@redshelf.com.

Course Description: EC202 Introduction to Microeconomics Introduces the determination of levels of national income, employment and prices, and the basic causes of fluctuations in the business cycle, the banking system, monetary policy and financial intermediation. Other topics may include international trade and international finance.

How this course works: This face-to-face class uses class lecture time, the textbook, Moodle, and MyLab software, as its primary resources. Your success in this class will be dependent on, how well you utilize these resources, attendance, participation, and studying.

Exams: Examinations will generally require 1½ hours to complete and of course you will have the normal class time to work on the test. The format could include multiple choice, short essay, and quantitative problems. **The exams will be closed books/notes and you can use a calculator (single-use device).** Exam dates are listed on the course schedule. Exams must be taken on the date scheduled unless prior arrangements have been made. If the mid-term exam is missed, and you have **compelling and documented** circumstances (job conflicts, oversleeping, car trouble, travel delays and traffic jams are **not** acceptable reasons), at the instructor's discretion, another arrangement can be made.

In-Class Guides:

The in-class note taking guides are intended to prepare students for the short answer/essay sections of the midterm and final exams. These are not graded.

Online Homework & Quizzes:

Registered students in this course automatically have access to online resources via Moodle. You do not need an additional access code or login I.D. Due dates for these activities are posted in the course schedule. Late online work is accepted with a 10% grade penalty.

Important: It is very helpful to have read the assignments before coming to class. Do not just accept as fact what is written, have an attitude of skepticism, or questioning. The best way to learn is to come to class with a question, or even better, a disagreement. The point of this class is two-fold – 1st to communicate basic truths or facts regarding the discipline of economics, 2nd to develop intellectual character and abilities which transcend this discipline – just like in athletics, these attributes cannot develop without practice.

Recommendations:

- Read the assigned chapters before class.
- Attend every class and be an active participant.
- Do not underestimate the amount of material that will be covered in this class.
- Complete the chapter reviews and essays on time.

Performance-Based Learner Outcomes: Upon successful completion of the course, the student should be able to:

- Measure Macro outcome inflation, unemployment, output.
- Demonstrate a knowledge of the Business Cycle.
- Demonstrate a grasp of how Fiscal Policy and Monetary policy alter Macroeconomic outcomes.
- Demonstrate an awareness of the U.S. Trade and Foreign Exchange Markets.

Course Policies:

- Registered students who do not attend the 1st day of class or make no contact with the course instructor will be automatically dropped after the first day.
- Out of fairness to all students, the grading and exam policy outlined above will be adhered to consistently.
- LBCC is committed to inclusiveness and equal access to higher education. If you have approved accommodations through the Center for Accessibility Resources (CFAR) and would like to use your accommodations in the class, please talk to your instructor as soon as possible to discuss your needs. If you believe you may need accommodations but are not yet registered with CFAR, please visit the CFAR Website for steps on how to apply for services or call 541-917-4789.
- **Diversity Value** – We are enriched by the diversity of our students, staff, and community. We welcome diverse perspectives and encourage the free exchange of ideas.
