"Inspiration exists, but it has to find you working." ~Pablo Picasso

Course Description: Emphasizes the development of perceptual and technical skills needed to describe 3-D objects on 2-D surfaces. Exposes students to conceptual and

technical art references and encourages students to think critically about art and expression as an integral part of learning to draw.

Course objectives: The class will provide individualized instruction in practical drawing skills designed for the beginner. We will cover fundamental gesture, contour, and value approaches to drawing from observation. Analytical techniques for spatial organization will be stressed. Progress will be made through exercises, slide lectures, demonstrations, and assignments. We will use different media including pencil and ink. Drawings will be shared for group and individual assessment (critique) as part of the learning-evaluating process.

Student Learning Outcomes:

Upon successful completion of this course, students will be able to:

- Apply appropriate vocabulary in written and oral critiques of artistic works.
- Demonstrate competency in applying a range of value with black and white drawing media.
- Construct a drawing showing spatial depth using the principles of linear perspective.
- Illustrate basic forms with black and white drawing media.

Online Etiquette & Time Management:

Our online platform is Moodle. Each week on Monday from 1 to 4pm I will give a live lecture on Zoom <https://linnbenton.zoom.us/j/93759597711>. Please attend if you can, I would love to get to know you and answer any questions you might have. All sessions will be recorded if you cannot attend a zoom. Due to the interactive nature of this course your weekly assignments, forums, and quizzes are extremely important. Your growth as an artist will be assisted by lectures, demos, and readings but only you can invest the daily time to practice these skills in your drawings.

Each week we will draw, critique, and produce verbal/written reflections on art. Your participation enhances our diversity of perspective and being engaged will allow you to reflect on the contributions of others.

Grade:

Quizes 10%

Weekly forum sharing & critique 20%

Weekly drawing assignments 60%

Final 10%

A 100-90%, B 89-80%, C 79-70%, D 69-60%, F 59-0%

Late work will be marked down one letter grade. For example a late homework earning a B will become a C. As college students, life does happen. If you communicate with me via email or office hours I will do my best to help you.

Testing: Quiz tends to be a word that causes anxiety in students. Our quizzes are open book, have no time limit (beyond the weekly deadline), and may be retaken to improve your grade. My goal is to ask you questions about concepts and vocabulary important for all artists to know and to incentivize careful interaction with our weekly slideshows.

Extra Credit is available weekly in moodle until week 9.

Academic Integrity:

The presentation of another individual's work as one's own or the act of seeking unfair academic advantage through cheating, plagiarism or other dishonest means is a violation of the college's "Student Rights and Responsibilities." Turning in someone else's work as your own, or buying a paper from a professional writer or a research center, or downloading one from a Web site, is plagiarism. Turning in another artist's drawing as your own is also plagiarism. All sources must be clearly presented. A plagiarized project will receive a zero. Two zeros for plagiarism will be grounds for an F in the course, regardless of other grades.*Recycling, referencing, appropriation, and outsourcing play important roles in contemporary art. If you use these tools be sure you can clearly state the conceptual significance of your choices and be transparent about them during critique/reflection.
