

Hyrax Use Cases at Linn-Benton Community College

Jane Sandberg (Electronic Resources Librarian)
sanbej@linnbenton.edu

Michaela Willi Hooper (OER/Textbook Affordability Librarian)
willihm@linnbenton.edu

Syllabi

- State-mandated 3-year retention.
- Using Hyrax Lease functionality to make accessible for required time and then setting to *private*.
- This also benefits the Learning Center and others who need a searchable, central place to find syllabi.

OER

- We wanted to be able to track OER created by LBCC faculty.
- If metadata are compatible, OER Commons is willing to harvest IRs for free (our favorite price)

Student Newspapers + Journals

- Working with the staff of the *Commuter* to archive the student newspaper.
- We also plan to archive the literary journal *Hubub*, although that hasn't previously been digitized and there are more IP concerns.

Institutional + Local History

- No separate platform for archives
- College docs, like course catalogs, accreditation self-studies
- Documents from local rural communities
