## CLASS STRUCTURE

This course is taught exclusively online. As class members you will be enrolled on LBCC's e-learning system as a portal to Moodle. Once you have accessed Moodle, you can bookmark it and access it directly from your home computer. Log on as soon as possible and update your password and contact information. Continue to log on regularly throughout the duration of the term.

It is our shared responsibility to develop and maintain a positive learning environment for everyone in the class. I take this responsibility very seriously and will inform members of the class if their behavior makes it difficult for me to carry out this task. As a fellow learner, you are asked to respect the learning needs of your classmates and assist your instructor in achieving this critical goal. Below are some specific ways you can help.

1. Read assigned material and take the online quizzes before the Weekly Assignment for which it has been assigned. The basic pattern to the class is read textbook, quiz, forum response, Weekly Assignment, read textbook, quiz, forum response, Weekly Assignment, etc.
2. Check Moodle frequently. Post your questions in the class forum.
3. Participate in class discussions in Moodle. Prepare your responses to be in-depth and thorough, going beyond a simple "yes," "no," or "I agree with the above response." Read the [Weekly Forum Guidelines and Grading Rubric](#) for additional information.
4. Because this is an online course, all assignments must be submitted through Moodle and Turnitin, and all class discussions will occur using Moodle's forum feature. It is essential that you access Moodle consistently and frequently. I will not accept emailed assignments or hyperlinks that direct me to a document outside of Turnitin. Be proactive in troubleshooting how to upload assignments successfully prior to due dates.
5. Here are a few tutorials to help with uploading and turning in assignments: Below are some helpful links to assist you in turning in assignments to me via Moodle. Remember, emailed assignments will not be accepted.

1. You can get technology help using the following methods: Call the Student Help Desk at 541.917.4630 or email questions to [elearning.support@mail.linnbenton.edu](mailto:elearning.support@mail.linnbenton.edu).

Ultimately, it is my responsibility to create opportunities for you to learn; it is your responsibility to do the work to learn.

**COMMUNICATING WITH INSTRUCTOR.** Email is the best (and recommended) form of communication with the instructor. When emailing, the instructor will only communicate with students via their LBCC gmail email accounts. It is the student's responsibility to regularly check Moodle and his/her email account for any announcements or supplemental information shared regarding the course. It may take up to 24 hours for responses from the instructor concerning questions about assignments during the week. I rarely check email on the weekend. The student is responsible to plan enough time to get the supplementary help needed and still be able to complete the assignment by the due date. If you have questions or comments, post them in the class forum. For personal matters, contact me directly. Use your LBCC email address, subject line your e-mails with ED 282 and sign with your first and last names for the fastest response.

Upon documentation of academic dishonesty and after consulting with the department chair and informing the student of the action taken, the instructor may impose any academic penalty up to and including an F grade in the course.

Assignments are to be typed, double spaced, and edited. Written work will be graded based upon content and presentation. If you need help with spelling, punctuation, sentence structure, etc., the Tutoring Center and Writing Center are good resources. <https://www.linnbenton.edu/writing-center>

## COURSE POLICIES

1. Attendance: Professionalism is expected in this course. Attendance and participation are indicators of professional behavior. You are required to log on once a week, post a response, and respond to one another student's post. However, it is recommended that you login often to stay current with discussions, possible changes of assignments, clarification of assignments, and any additional material that may be presented online. The Forum is an excellent place to ask classmates for discussion on a course topic. Assistance with an assignments, and/or recommended readings in addition to the resource provided by the course.
2. Written Submissions: All assignments should be typed in Microsoft **WORD** or Google Docs on a computer, saved, and submitted as an email attachment or online as indicated by the assignment. Be consistent across areas, write professionally using appropriate grammar, and content.

Papers will be graded as follows:

- 15% for mechanics (correct Standard English, complete sentences, spelling, grammar, punctuation, and so forth).
- 85% for content (clarity and flow of ideas, evidence of insight and understanding, organization, support of major points, introduction and summary, and so forth), Students are expected to **proofread** papers **prior** to original submission to ensure a professional and acceptable product. - Should a student have an unexpected delay in maintaining the due dates, please notify the instructor in a timely manner.

3. Save Your Work: compose your work offline using your word processing program whether the work is a reflection, comments for the Discussion Board, responses to another student's work or any written assignments. Don't let your hard work be lost to cyberspace because you forgot to save.

4. Netiquette: As in any classroom, there are guidelines for online class discussion or interaction of any type. The experts in online teaching recommend that a policy of "netiquette" be stated for all classes. Respect will come into play as issues are discussed on which you may have very different views. As the saying goes, "WE can agree to disagree," while respecting the rights and dignity of others. For this

course, these two guidelines will provide the background for appropriate interaction. You are welcome and encouraged to add suggestions for online "netiquette." Remember, we are all starting this online adventure together and you as the consumers of the method are in a good position to spot room for improvement in this or any other area of the course.
