Teaching Methods:

A variety of instructional methods to attempt engagement and meet a range of learning styles. These methods include lecture, discussion, team activities, case studies, guest speakers and videos. Students are expected to contribute to the learning of self and others in a laboratory/workshop style. As employers request that our graduates have the skills to work in groups there will be group work in this class. If you want a class where the instructor talks for the duration and you do not have to be engaged, this class might not be for you.

Although this is a classroom-based course, there is an online component through LBCC’s Moodle software. You will receive instruction and support to be able to use Moodle.

1) Online Quizzes (40%)

- 1.1 As your homework assignment, you will be expected to complete **open book, online quizzes.**
- 1.2 You have 90 minutes within one week to complete each quiz after you start it. It is important that you familiarize yourself with the lecture contents before attempting the quiz as there is little time to look up answers. As the quizzes are partly an exercise in completing work to deadlines, there are no late submissions under any circumstances (unless there is a problem with the quiz software (Moodle) that can be verified by the LBCC Moodle administrator. My advice is to complete the quiz earlier rather than later in the week when family or computer problems may arise unexpectedly. If you are having problems getting into the quiz then you must contact me before the closure deadline. Contacting me afterwards suggests the quiz has been missed.
- 1.3 The web site for testing is called Moodle. All student activity on Moodle is tracked and time/date stamped. Software records and/or instructor word is final.
- 1.4 At any time during the course, if you want to know whether there is a quiz currently on line, go on the course website on Moodle and under ‘Announcements’ you will see which quizzes are currently open and also when the quizzes close.
- 1.5 The answers to the quizzes will be published after the weekly deadline.

- 1.6 The quizzes are intended to ensure you comprehend the lectures and material.
- 1.7 You will be able to drop your lowest quiz score.
- 1.8 Please check your grades weekly and address any issues before the course ends.

2) Business Game Activities (15%)

2.1 During the course you will practice making entrepreneurial and small business management decisions in a low-risk environment. The business game features scenarios in which you will choose from a number of actions in order to demonstrate learning of material.

2.3 You will write 2-3 paragraphs (at least 5 sentences in each paragraph) for each round of the business game explaining your decision, your thought process, and your expected outcome of your decision.

3) Presentations and Peer Group Assessment (15%)

- 3.1 During the course you are asked to give a **group** presentation of a business plan.
- 3.2 Every student must participate in the preparation and delivery of the presentation.
- 3.3 Each presentation will be a minimum of 10 and a maximum of 20 minutes.
Groups for the presentations will be formed around week 4.
- 3.4 It is your responsibility to manage your role in the group process.
- 3.5 Documentation should be kept of group rules and meetings, etc.
- 3.6 From the 200 points available:

Within each group, 100 points will be awarded to each group member by each group member. This process is confidential. 100 points will be awarded by the instructor in accordance with criteria agreed in class.

- 3.7 If a student misses the presentation without notifying me before hand, then there can be no makeup. If you cannot make the presentation, then notify me ahead of time and we can reschedule your part.
- 3.8 Presentations take place during week 11 (Finals week). Your attendance during all group presentation sessions is calculated into your grade for the presentation assignment.

4) The Small Business News (5%)

- 4.1 The goal of this assessment is to ensure that students are tracking the news as it pertains to entrepreneurship and small business management. Please be mindful of this objective. My objective is not to inconvenience you by requiring you to bring news every week. Leaving class to go to the computer lab to print an article off or, pulling up a news article from a laptop or cell phone means the student is not prepared for class and has not been reading the news as it pertains to small business.
- 4.2 You can expect to be randomly chosen twice during the term to present the business news. Each presentation of the news carries 2.5 % towards your end of course grade.
- 4.3 If you do not have any news to present, say “pass.” You must forfeit the points available for presenting the business news on that day. There can be no make-up.
- 4.4 When you are chosen I want you to tell the class (from where you are seated) about some business news that impacts entrepreneurship and/or small business, preferably from a **recent headline**. Your news article should be dated (not by the

student and not the date that it was printed by the student). I will demonstrate how the business news works in the first week of term appropriately.

- 4.5 You must bring a **printed copy** of a small business news article to class for credit. The pertinent points must be **highlighted and must have an article print date.**
- 4.6 Your news should last between **1 - 2 minutes.**
- 4.7 Familiarize yourself with your news article before class because the news should be **presented, not read.**
- 4.8 Students are chosen to present at random. It might be that you are not asked to present the news until late in the course. This is quite normal. If you are chosen early in the course, it does not mean that you will not be asked to present until much later in the course. Always have a copy of the small business news on hand.

5) Participation Points (15%)

- 5.1 During the term I will be giving the opportunity for each student to earn participation points. The points will be earned for contributing to the class by being prepared, participating in role plays, activities, and discussions etc.
- 5.2 **You will need to be present at roll call and at the end of class** in order to qualify. Participation points cannot be earned if the student is not in attendance. Participation points are not attendance points.
- 5.3 Participation points may include the submission of a current small business news article. After I have collected the news, I will not accept any news after that time.
- 5.4 Participation points are not given when repeated cell phone use in class is apparent.
- 5.3 **Note:** When I calculate grades at the end of term, the participation points often make the difference between grades. In other words, you will need to be in class to get the points from these tests to maximize the possibility of earning a good grade.
- 5.4 Thank you for being respectful of our learning environment by not staring at mobile phones or texting in class. This is deemed as not participating.
- 5.5 If arriving to class late, please remember that one's entrance is likely to disturb the concentration and listening of others. Please attempt to arrive on time.
- 5.6 You will need to give constructive feedback to your other team members and classmates during the Business Plan presentations during the last two sessions of class in order to earn Participation Points.

6) Term paper 15%

One printed copy of your participation to the group's business plan should be given to me **before the presentation.** This copy represents your final paper. Your contribution to the plan should be clearly identified with your name. **Your individual contribution should be 4 pages, not including diagrams, tables etc; single-spaced, 12-point font, Times New Roman font only.** Pictures should not be generic but should be relevant to your business. Your names should be printed on your group's plan and it should not be submitted as loose leaf, unstapled papers. Please follow the rubric for this assignment to ensure that you understand the grading criteria.

7.) Academic Integrity

Any work submitted in this course for academic credit must be entirely your own work. You are encouraged to study together and to discuss information and concepts covered in lecture and the sections with other students. You can give "consulting" help to or receive "consulting" help from other students. However, this should never involve one student having possession of a copy of all or part of work done by someone else. Should copying occur, both the student who copied work from another student and the student who gave material to be copied will both automatically receive a zero for the assignment. Penalty for violation of this code can also be extended to include failure of the course and college disciplinary action.

Please note: I do not need to be informed of any absences. If you need to be absent from class for any reason, it is your responsibility to find the class material online, confer with your classmates for notes, and ensure that you are caught up on missed material. **Participation points cannot be given if you are not present for the duration of class time.**
