"TO THE OTHER FELLOW" (borrowed from "The Flip Side of Paul Armstrong" published recently by LCC) "CRITICISM" (from same publication)

I would that I might see
What's wrong with me,
As clearly as I do
What's wrong with you.

Criticism,
We believe,
More blest to give
Than to receive.

ARCHITECT - WEDNESDAY! (reminder) - Mr. Chris Jeppsen will be on campus all day Wednesday to review LBCC's permanent building plans with faculty, staff and students. Check Friday's memo for time schedule.

IT'S "WHO WROTE IT?" TIME AGAIN! (Gazette Times, Corvallis)

"Unsigned letters to the editor will be accepted until noon Feb. 1 and published through Feb. 2." Often people take this opportunity to criticise LBCC in any little old way - there's one coming on the basketball team, according to the editor. These letters get much more attention than most news stories, and while there's time, a few letters in our behalf (signed or unsigned) would rate equal attention. Anyway, it's a fair community temperature gauge.

WELCOME FRANCIS AND KATHLEEN!

Francis Paist is Mr. Jordan's new secretary. Her husband, Paul, is chief engineer for Nebergall Meat Co., and she has two children - a daughter employed at Channel 9 in Eugene and a son recently discharged from the Army.

Francis is not only active in the Republican party (look out Mr. Jordan!!), but has 33 years experience in the Girl Scouts. She's looking forward to the challenge of "working around young people".

Kathleen Shelton is Gayle Green's new secretary, and the person responsible for that healthy glow emanating from nursing headquarters. She's a resident of Scio and past OSU student.

Kathleen's a musician - plays the piano and flute and directs too! Ask her about her experiences as a high school student in Japan!

She's been married to "Noel" for three years.

No Change

I never cease to wonder,  
In this age of space and speed,  
That distance still remains the same  
Between the word and deed.
